President Dennis Perez called the meeting to order at 6:00 pm.

The meeting began with a thorough discussion of the services being provided by some of the funded agencies. Issues with CRC were discussed, including multiple requests for releases of information, phones rolling over to Centralia, reports of failed appointments through no fault of the person served, juveniles being treated in therapy groups with adults, frequent turnover, the intake process forcing persons served to relive their trauma numerous times, not doing more than one type of counseling at a time, 6-8 month wait for the psychiatrist, etc. This led into discussion of the need for a comprehensive assessment of needs in Clinton County. Administrator will develop a survey, in collaboration with 708 members, to send to citizens of Clinton County. These results will be used to begin strategic planning at the next meeting.
